Indiana Banking Careers

Did you know that there are roles in the banking industry that suit a variety of skills and personalities? Check out the options below to see how you can be a valuable fit for an Indiana bank.

Personal Bankers, Tellers & Accountants

Are you good with math and enjoy numbers? Tellers and personal bankers handle customer transactions, while accountants keep track of financial transactions.

Information Technology & Cybersecurity

Are you a computer whiz with data and security? IT and cybersecurity professionals work with systems, websites and apps to ensure a safe environment for customers.

Loan Officers

Do you like to connect with people and have an entrepreneurial spirit? Loan officers reach out to individuals, businesses, farmers and others to help them secure funding to reach goals.

Fraud Specialists

Are you good at finding clues to solve problems? Fraud specialists detect and investigate suspicious activity to protect customer accounts.

Compliance Professionals

Are you detail-oriented, good at following instructions and possibly interested in law? Compliance professionals ensure proper procedures are in place to comply with regulations.

Marketing & Public Relations

Do you enjoy social media, digital media and writing? Marketers promote the bank, its staff and services to attract customers.

Human Resources & Trainers

Are you a team builder? Human resources and training personnel have a hand in managing employee placement, salaries, benefits and training.

Security Officers

Do you have a calling to protect others? Security officers stay on the alert to protect bank customers, employees and assets.

Trust & Investment Advisers

Do you have an interest in helping others plan for the future? Trust and investment bankers help clients manage money and property for long-term financial strength.
