Instructor

The Branch Management Series is presented by Performance Solutions, Inc., a training & consulting company that specializes in providing solutions to the key challenges facing community banks today in attracting, selling & servicing their customers. The Branch Management Series was originally introduced in 1983 and is continually revised and updated to meet the challenges and changes the banking industry experiences.

Dianne Barton is the Founder & President of Performance Solutions, Inc., a training and consulting company that specializes in providing solutions to the key challenges facing community banks today in attracting, selling & servicing their customers. As a former banker, her service, which includes a broad scope including strategic planning, leadership and management development, regulatory & compliance implementations, retail growth strategies, and sales & service culture development, is recognized as "real world solutions" by both regional banks and community banks.

Dianne's training programs are designed to "close the gap" between the bank's needs and employees' skills. A philosophy of experiential learning and participant involvement in training led to the development of her "TELL-SHOW-DO" training method that is skill based rather than theory based. The training limits lecture discussions to a maximum of 7-9 minutes, relying on an active "hands on" approach by the participants.
