NEW GROWTH OPPORTUNITIES
THE IBA LEADERSHIP DEVELOPMENT PROGRAM

A ONE-OF-A-KIND LEARNING EXPERIENCE
A world-class faculty teamed with the Indiana Bankers Association to tailor a program that will have an immediate, positive impact on attendees and the banks that sponsor them. This series of four sessions, spaced over a eight-month period, is intense and demanding. It is designed for future bank leaders who are motivated and eager to reach full potential. An ambition to excel is a requisite for this series, as is the desire to face and learn from challenges.

The ideal candidate for this program should have:
- The courage to overcome personal weaknesses;
- A competitive attitude that allows for productive teamwork; and
- A collaborative spirit that centers on problem-solving, with input from all levels of the bank.

LEADERSHIP COMPETENCY PROFILE
Participants will participate in pre- and post-program surveys designed to provide detailed analysis of their growth and development as leaders based on specific key performance indicators. Roughly two weeks prior to session one, participants will take part in a pre-program survey that will evaluate their Leadership Competency Profile. Results from that survey will be used by faculty to establish performance measurement goals for each participant. Upon conclusion of the program, participants will retake the initial survey to generate comparative data for discussion with their executive sponsors and to establish a new Leadership Competency Profile.

LEARNING OUTCOMES
AT THE CONCLUSION OF THIS PROGRAM, ATTENDEES WILL HAVE THE SKILLS TO:
- Apply core concepts of leadership and management
- Articulate and advocate persuasively for the bank and industry
- Make courageous decisions crucial to the bank’s success
- Think, plan and successfully execute bank initiatives
- Deliver compelling business presentations
- Motivate themselves and others to help the bank thrive
- Contribute to the future of banking with innovative, forward thinking
- Build and lead high-performance teams
- Developing organizational cultures that sustain success

“Leadership requires courage and the willingness to take risk and if you are willing to get out of your comfort zone this is a program designed for you. I would encourage anyone who wants to be the one to watch within their organization to jump on board and take the leadership development program.”
— Annette M. Russell
Security Federal Savings Bank, Logansport

“I highly recommend this program for anyone who wants to be a better person, a better professional and a better leader.”
— Gary D. Shearer
Old National Bank, Fort Wayne

“I wasn’t expecting a group of total strangers to leave a lasting impact on my life and career. I showed up at LDP with a bag of clothes, paper, pen and I left with patience, humility, structure, vision; I left a new person.”
— Nolan E. Taylor
First Savings Bank, Clarksville

“It’s funny that it’s called a program. I don’t consider it a program, I don’t consider it a class. It’s more of an experience. LDP showed me things I didn’t know I could do. It showed me that you can be pushed out of the area of limitations you’ve set for yourself.”
— Lori Porter
Our Community Bank, Spencer

“The program dives deeper than just becoming a better banker. It made me a better person.”
— Gavin Fisher
Community First Bank of Indiana, Kokomo
FACTOR LEADERS
THE IBA LEADERSHIP DEVELOPMENT PROGRAM
A unique and valuable element of LDP is that the three faculty members co-facilitate each of the four sessions. This enables participants to continually build on skills and competencies developed from session to session and for comprehensive perspectives to be shared on critical topics in leadership and banking.

Juli Lynch, Ph.D.
Juli Lynch embraces a passion for working with organizations to develop leaders, teams and cultures that are dynamic, risk-taking and fully engaged in strategic initiatives. Juli has a doctorate in human and organizational development, which has given her the disciplined foundation of understanding organizations and the humans that they are made of. Her master’s degree in motivational psychology further enhances her ability to work with the issues and challenges that keep leaders, managers and staff from reaching their potential. She is also an executive coach – enjoying the opportunity to work with professionals one-on-one to guide them toward their purpose and passions.

Juli has over 20 years of experience with a long list of organizations, from Fortune 500 to nonprofits to small family-run companies. Much of her work is focused on the financial service industry, giving her a keen insight into the unique challenges faced by frontline staff, management and officers. She is a nationally recognized endurance athlete, once racing with a team of Navy SEALS in grueling multi-sport, ultradistance races.

Jackson Hataway, Ph.D.
Jackson holds a doctorate in organizational communication from the University of Alabama. He specializes in internal and external communication, organizational development, team building and strategic planning. He has a unique ability to couple real-world practicality with new theories of corporate growth and change. Through his work facilitating strategic planning sessions and conducting leadership and team-building seminars, Jackson has learned to identify the resources that are often forgotten or ignored by organizations — and to hone those resources so that they become invaluable.

Jackson’s expertise in communication theory and strategy has led him to work regularly with executives at leading digital technology companies such as Microsoft and Adobe to develop internally and externally facing communication platforms. At the same time, he works with some of the fastest-growing financial institutions in the US to drive cutting-edge strategy and innovation that impacts that bottom line. All of these engagements enable him to bring a wealth of best practices and insights to clients across the country.

Captain Steve Ahlberg, MBA
US Navy SEAL, Retired
Steve Ahlberg understands the reality of facing long odds and devising methods for managing them. That’s one thing a career spent in the U.S. Navy has empowered Steve to do: think thoroughly and strategically. In large part, Steve’s core value system took shape during his career as a SEAL, SEAL team leader and deputy commander of the Navy SEAL community. The SEALs are arguably the most versatile of the military special operations’ groups. It is their job to handle the world’s most demanding missions with precision. Steve remains unquenchingly popular because of his ability to wind stories of his military exploits around effective methods of business communication, team leadership and executive training.
